coverage.py v7.10.6, created at 2025-09-16 23:05 +1000

1. Image Uploading

- **Test case:** Upload valid and invalid files.
- **Acceptance criteria:**
 - Invalid extensions must be rejected with **400 Bad Requests**.
 - Valid images must be accepted, stored under **patches/**, and listed in response.
- **Result:** Passed — invalid **.txt** rejected, valid **.png** saved correctly.

2. Image Conversion

- **Test case:** Upload a **.svs** file and request conversion to preview format.
- **Acceptance criteria:**
 - Response must contain both the **input_file** and generated **output_file**.
 - Both files must exist in **uploads/**.
- **Result:** Passed — **.svs** stored and preview **.png** created as expected.

3. Image Patching/Tiling

- **Test case:** Request tiling of a converted **.svs** image.
- **Acceptance criteria:**
 - Response must report **ok: true** and a **non-zero tile count**.
 - A corresponding directory under **patches/** must contain exactly that many tiles.
- **Result:** Passed — tiles generated and counted correctly.

4. Image Rendering

- **Test case:** Render stored **.png** and **.tiff** files to a browser-friendly format.
- **Acceptance criteria:**
 - PNG must be served as **image/png**.
 - TIFF must be converted and returned as **image/png**.
- **Result:** ✓ Passed — correct formats delivered.

5. Listing Patches

- **Test case:** List directory contents including **.png**, **.jpg**, **.tiff**, and nested files.
- **Acceptance criteria:**
 - Response must list all files with metadata.
 - **.tiff** entries must have **display_url** pointing to **/api/render**.
- **Result:** Passed — listing returned with correct display URLs.

6. Exporting

- **Test case:** Export images in single and multiple modes.
- **Acceptance criteria:**
 - **format=keep** must return original file.
 - **format=jpg** must return JPEG conversion.
 - Multiple files should be selected and exported correctly.
- **Result:** Passed — single exports streamed correctly, multiple exports correctly.

Overall Coverage

- **Target file:** **app.py**.
- **Coverage achieved:** **~76%** line coverage.
- **Outcome:** All designed tests executed successfully; system behavior matches acceptance criteria.
